The Site Investigation and Restoration Section (SIRS) invites public comment on a proposal to address the Former Kirkwood Highway Gulf Station Operable Unit-1 (OU-1) located in Wilmington. The Former Kirkwood Highway Gulf Station Site is the location of a former Gulf/Cumberland Farms gasoline station with an auto repair garage and a food convenience store. The Site is located at the northwest corner of the intersection of Limestone Road and Kirkwood Highway. The Site is a certified Brownfield and is being developed for use as a commercial bank. The Proposed Plan for OU-1 requires the removal of an underground 1,000-gallon heating oil storage tank, installing a vapor barrier system beneath the proposed new building slab, capping the site with asphalt and clean soil for landscaping areas, restricting groundwater until the petroleum related constituents have been satisfactorily remediated. The selected groundwater remedy will be addressed in the Proposed Plan for OU-2. Long term activities include maintenance of the vapor barrier system and its components, groundwater monitoring and cap maintenance. The comment period ends on September 19, 2011.
